

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE		PAGE 1 OF 84 PAGES	
2. AMENDMENT/MODIFICATION NO. 0001		3. EFFECTIVE DATE See Block 16C		4. REQUISITION/PURCHASE REQ. NO. Q-8-QC-01-U1-A00 000		5. PROJECT NO. (If applicable)	
6. ISSUED BY Internal Revenue Service 6009 Oxon Hill Road, Suite 500 Oxon Hill, MD 20745 BROWN, LEONA M 202-283-1296		CODE IRS0088		7. ADMINISTERED BY (If other than Item 6) See Item 6		CODE	
8. NAME AND ADDRESS OF CONTRACTOR (No. Street, county, State and ZIP: Code) TO ALL OFFERORS Vendor ID: 00055905				(x) X		9A. AMENDMENT OF SOLICITATION NO. TIRNO-07-R-00010	
						9B. DATED (SEE ITEM 11) 11/26/2007	
						10A. MODIFICATION OF CONTRACT/ORDER NO.	
						10B. DATED (SEE ITEM 13)	
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☒ is extended, ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATA SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and data specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS,
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.**

(x)	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not, ☐ is required to sign this document and return copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

See SF30 Continuation Sheet

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print)	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
_____ (Signature of person authorized to sign)		BY _____ (Signature of Contracting Officer)	

SF30 CONTINUATION SHEET

THE PURPOSE OF THIS AMENDMENT IS TO CHANGE SUBJECT SOLICITATION AS FOLLOWS:

1. The due date for subject solicitation proposals is hereby extended to Monday, December 10, 2007 at 10:00 a.m. EST.
2. Contract line item (CLIN) quantities are hereby revised in accordance with the attached Schedule of Supplies and Services. This revised Schedule should be used to when submitting pricing information.
3. Contract line items 0067, 0068, 0069, 0070 and 0071 and subsequent subclins are hereby added or revised in accordance with the attached Schedule of Supplies and Services.
4. Solicitation questions and responses are hereby provided as follows:

SOLICITATION QUESTIONS AND ANSWERS

Question 1. In block 10 of SF 1449 no size standard has been indicated. For clarification, can you specific the size standard for this solicitation or direct me to where it is located in the solicitation?

Response: This solicitation is issued under the North American Industry Classification System (NAICS) code 541519 under Information Technology Value Added Resellers; the size standard is 150 employees.

Question 2. On page 191 of the solicitation for TIRNO-07-R-00010, Section II. 1 second paragraph, it states, "In addition to completing and returning one (1) copy of the completed solicitation, with definitive statements to all representations and certifications ..." For clarification, should this one copy of the solicitation be a bound hardcopy or electronic?

Response: The solicitation should be submitted in hard copy.

Question 3. The 1449 identified this as a Small Business Set Aside. Based on the NAICS code can the incumbent compete on this effort?

Response: Any vendor that qualifies as a small business under the NAICS code may submit a proposal under this solicitation.

Questions 4. If the answer to number 1 is YES, what is the governments level of satisfaction with the incumbents performance on DESAC III?

Response: Past performance information gathered by the IRS for any vendor is considered procurement sensitive and may not be released.

Question 5. Does the government have any information concerning the level of effort on the part of the contractor for DESAC III? and, if so is this information available?

Response: See response to question 4.

Question 6. 3.4.1 of the RFP mentions Attachment 3 however this attachment was not provided. How do we obtain this attachment?

Response: This attachment was listed in error, the IRS does not have that information available. For your assistance, Attachment 2 of the solicitation lists the quantities of items currently owned by the IRS and Attachment 1 of this amendment lists all possible service locations under the proposed contract.

Question 7. Within the Addendum to FAR 52.212-1 Part II Section 1 "Technical Proposal Section 3" it states that "Offerors will be required to submit with their proposals the names of three (3) past or present customers for whom they have performed contracts for the delivery of assistive technology products and related support services." Can you provide clarification for the situation where the offeror contemplates using a subcontractor? Should the Offeror and the subcontractor each submit three past performances?

Response: The prime contractor is responsible for meeting the solicitation's past performance requirement.

Question 8. Can a vendor bid partial line items and be specific to a geographical area on the above referenced Solicitation?

Response: No. This solicitation will be awarded to a single vendor to provide the entire requirement.

Questions 9. All line items in the schedule of supplies/services seem to contain the same quantities across all five years of the proposed contract. For example, Item No. 0017, 80 Cell Refreshable Braille Display System (Braille Star 80 or equivalent) has a quantity of 112 across all five years. Does IRS mean that 112 Braille Displays have been purchased per year in previous contracts? Please clarify.

Response: The estimated quantities contained in the initial solicitation were

incorrect. Quantities have been revised and are listed in the attached Schedule of Supplies and Services.

Question 10. Throughout the RFP, some service level requirements are specified in terms of days. In some instances days are identified as "calendar" while in others, no reference is given. Should all days be assumed as "calendar"? If not, please clarify.

Response: We revisited the RFP and the majority of references to days specify calendar or business. In instances where there is no specification, the reference can be assumed to mean calendar.

Question 11. Please define accessible formats and is it the responsibility to provide multiple formats to the same end-user?

Response: The contractor must provide electronic, large print, or braille cassette, and CD materials to IRS customers when such materials are available from the manufacturer. Accessible electronic materials (i.e. MS Word or ASCII text) are appropriate for all customers, but other formats should be provided as appropriate to the customer. For example, a large print manual would be appropriate for a low vision customer if it is available and the customer wants the manual in large print in addition to accessible electronic format.

Question 12. Does the current software used by the IRS meet all requirements in section 3.2.2?

Response: The requirements in Section 3.2.2 were developed to reflect current network and security requirements and represent the IRS' requirements for future software purchased under this proposed contract vehicle. The software must adhere to those agency regulations.

Question 13. Please define "significant system cleanup efforts".

Response: Significant system cleanup efforts may include such actions as modifications to the windows registry and setting security permissions on files/folders. This requirement will vary depending on the software package..

Question 14. Who is responsible for packaging the software?

Response: The manufacturer of the product is responsible for packaging the software. However, the vendor who is awarded the contract would ultimately be responsible for ensuring that all packaging meets the requirements of the statement of work.

Questions 15. Once software is "packaged" in a format that will allow downloading or execution from a remote location, who is responsible for maintaining these network systems and the corresponding software?

Response: The manufacturer of the product is responsible for systems/networks on their end. Once the necessary software has been downloaded by the IRS the software can be removed from the manufacturer's network. The government will handle internal software distribution on the IRS network. We obtain the build from the manufacturer, then IRS is responsible for packaging and distributing to customer.

Question 16. Will the contractor be required to provide maintenance coverage for items still under warranty by the previous contractor for DESAC III?

Response: Maintenance for items still under warranty under the previous contractor will be purchased under the new contract after the item's warranty has expired.

Question 17. Given that no loaner Braille printer is required, what is the return to service requirement for a Braille printer?

Response: The return to service requirement for Braille printers will be 2 weeks.

Question 18. How will specifications in this section be weighted?

Response: All technical specifications will be rated on a pass/fail basis in accordance with Solicitation Attachment 2, Addendum To Far 52.212-1. With regard to the Section 508 requirements, the IRS must acquire the product that fully meets the Access Board's technical provisions and the accessibility needs of the intended end users. If no offered product meets all of the technical provisions, the Access Board's standards require an agency to "procure the product that best meets the standards"

Question 19. Will the customer be allowed to transfer data from the computer to the notetaker?

Response: Yes, this will be permitted with an external disk drive. This disk drive has been added to the solicitation under the attached Schedule of Supplies and Services. The required specifications for the drive are:

The external disk drive shall provide the following functions at a minimum:

- a. Disk format shall be 1.44 MB.*
- b. Connectivity shall be USB*
- c. Floppy Drive will be powered through the USB and notetaker.*
- d. Fully compatible with the portable notetakers described in this solicitation*

Section 508 does not apply.

Question 20. Does the device need to have security features to protect the data?

Response: Currently, this is not a requirement, but IRS Security policy may change in the future.

Question 21. The Braille Star product line is unavailable due to a sole source distribution agreement. Will the government revise the specifications in this section that are only available on the Braille Star products?

Response: The technical specs for the Braille Star 40 or equivalent have been revised as follows:

Specification L has been revised to read: .Operated by battery/USB and by supplied AC adapter.

Specification M that stated, "4 MB of internal storage. Text can be downloaded from the PC or typed in by user", has been eliminated.

Specification N that stated, "Concave Braille cells", has been eliminated.

The technical specs for the Braille Star 80 or equivalent have been revised as follows:

Specification M that stated, "4 MB of internal storage. Text can be downloaded from the PC or typed in by user", has been eliminated.

Specification N that stated, "Concave Braille cells", has been eliminated.

Specification P that stated, Can be connected to 2 computers simultaneously.", has been eliminated.

Products may be proposed containing the eliminated specifications, but they will not be given any technical preference over those that do not contain those specifications.

Question 22. The specifications in this section refer to 4 MB of internal storage. Does this storage need to be secured? Can the customer transport this device?

Response: Currently the storage does not need to be secured. Forty cell Braille displays should be transportable. See revised technical specifications in Question 21.

Question 23. Does the Braille display need to be standalone?

Response: The Braille Star 40/80 can be used as a standalone or as a note taking device not using JAWS.

Question 24. Can the Braille display be powered by USB?

Response: Yes

Question 25. Does the Braille display require concave Braille cells?

Response: No, See revised technical specs in Question 21.

Question 26. Does the government currently connect the Braille display to two computers?

Response: We do not currently have any users using their braille display on two computers. See revised technical specs in Question 21.

Question: 27. Does the screen reader need to support the use of the Braille display on two computers?

Response: No, see revised technical specs in Question 21.

Question 28. Does the Braille display require batteries if it is powered by the PC?

Response: It would depend on the product proposed. See revised technical specs in Question 21.

Question 29. Does the Braille display require an AC adapter and on/off switch if it is powered by USB?

Response: If the product meets other technical requirements it will be considered. See revised technical specifications in Question 21.

Question 30. Does the contractor have to supply accessible documentation when the product manufacturer does not provide accessible formatted documentation?

Response: No.

Question 31. Does the contractor have to supply all formats of accessible documents, or just those requested by the IRAP office?

Response: The contractor must provide electronic, large print, or Braille cassette, and CD materials to IRS customers when such materials are available

from the manufacturer.

Question 32. If the customer requests a Braille copy of a manual when it is not commercially available from the manufacturer, is the contractor required to produce the Braille manual?

Response: No.

Question 33. Are accessible formats that by their nature conflict with the needs of a user that is utilizing the technology need to be furnished? For example, are Braille documents necessary for users of ZoomText magnification rather than large print documentation?

Response: No.

Question 34. Are all items to be delivered within 15 calendar days, including the Braille Express 150, which takes the manufacturer longer to build, excluded from this requirement?

Response: All items excluding braille printers must be provided within 15 calendar days. When the product is ordered and acceptable delivery date will be established.

Question 35. Is there currently a process by which the government and contractor synchronise this information? If not will the government require ongoing access to this record management system?

Response: There is a process currently used to synchronize this information.

Question 36. The devices listed above are unavailable for purchase, but the specs only refer to this product line. Will the government modify the specs to allow for a different product line?

Response: The technical specs for these items have been revised. Please see question 21.

Question 37. Do all current products meet the standards listed in this section?

Response: Each requirement for electronic and information technology has its own applicable, required standards. The standards listed in Attachment 6.3.1, Attachment 1 of the statement of work set forth the standards that apply to this requirement and will apply to items purchased under this new contract.

Question 38. Does the contractor need to complete forms for all hardware and software including assistive technology products that are already in

use by the government?

Response: The contractor must complete the forms in accordance with Attachment 6.3.1, Attachment 1 of the statement of work and Solicitation Attachment 2, Addendum to FAR 52.212-1, for all applicable product that are proposed under the new contract. Items already in use by the IRS were purchased under other contract vehicles and have met the required standards under those vehicles.

Question 39. Does the contractor need to complete forms for all services and documentation?

Response: Please see Attachment 6.3.1, Attachment 1 of the statement of work and Solicitation Attachment 2, Addendum to FAR 52.212-1. The standards apply to specific contract items and only specific standards apply to each of those items.

Question 40. Can the government provide a list of the service locations?

Response: A list of service locations have been provided as Attachment 1 to this amendment.

Question 41. Can the government provide instructions for pricing training? Should pricing be an hourly rate or class rate?

Response: Pricing for training should be a class rate.

Question 42. If the pricing is a class rate, will the government provide historical data on the length of the courses during the last contract?

Response: The information is provided below:

DESCRIPTION	Hours
Train Naturally Speaking	16
Train Macro Development for speech Rec	16
Train Exploring the internet for Speech Rec	8
Train Speech Rec for Excel	8
Train Speech Rec for Word	8
Training for Upgrade to Dragon current vers	16
Training Naturally Speaking Legal	16
Train WYNN	8
Train Nextalk VM	3
Train Genie Pro	4
Train Kurzweil 1000 w/scanner	8
Train VoiceNote BT mPower	8
Train VoiceNote BT	8

DESCRIPTION	Hours
Train VoiceNote QT mPower	8
Train VoiceNote QT	8
Train Duxbury	2
Train Juliet	2
Train Braille Express 150	2
Train JAWS (each)	8
Train JAWS level 2 advanced	16
Train JAWS Scripting	16
Train JAWS Basic Navigating in Windows	8
Train JAWS level 1 Basic Training	8
Train ZoomText (each)	4
Train Braille Star 40	8
Train Braille Star 80	8
Train for JawBone Software	8
Training Magnitalk software	8
Train Kurzweil 3000 each	8
Train Amigo Portable CCTV	4

Question 43. Does the cost of training for Deaf and Hard of Hearing employees include the cost for interpreting services?

Response: The cost of training for Deaf and Hard of Hearing employees should include the cost for interpreting services.

Question 44. Does the government provide interpreting services at some government locations?

Response: Those services are available at most locations, but according to the terms of the SOW, the contractor should provide interpreting services for training classes.

Question 45. For pricing purposes, is the CLIN for Time and Materials (0069) only a quote for an hourly rate? Will the contractor be paid separately for materials?

Response: The line item should be proposed as an hourly rate (note line item revision). A separate line item has been added for materials. For proposal purposes, the IRS will estimate materials at \$10,000.00 per year.

Question 46. Q: How should the contractor price CLIN 0070 for Travel?

Response: Please note that the line item number for travel has changed. In

accordance with the solicitation, the Government has estimated travel at \$150,000.00 per year based on historical data. This estimate will be used for evaluation purposes. The contractor will invoice the government separately for travel incurred expenses. Travel is priced according to the GSA Domestic Per Diem rates, which includes lodging, meals, and incidental expenses. Contractor travel (like IRS employee travel) is regulated by the government travel Handbook regulations.

Question 47. The pricing tables ask for installation for many devices not mentioned in section 3.3.2, will the contractor be required to provide installation prices on all items in the pricing tables or just the ones covered in the table titled “Installations will be offered for:”?

Response: The contractor should provide Installation for all products listed in the solicitation pricing schedule that include the term “installation”.

Question 48. Can the government provide a list of the maintenance calls over the last contract?

Response: The Government does not have that information available, however a table has been compiled showing the number of monthly maintenance calls per item for the past 12 months. This sample is indicative of yearly maintenance call under the contract. The table has been attached as Attachment 2 to this amendment.

Question 49. Will the government provide existing test plans to the contractor?

Response: The government will provide input for the vendor developed test plans.

Question 50. Will the government provide the contractor all existing outlines at time of award?

Response: In accordance with the terms of the statement of work, the vendor will develop new outlines with guidance from the government.

Question 51. Should the contractor expect to provide the cost of sign language interpreters for all training courses or just the ones for items specific to Deaf and Hard of Hearing employees?

Response: The contractor should provide interpreters who are proficient in ASL sign language for all training sessions that require these services.

Question: 52. Should the training CLINS include the cost for sign language interpreters or will this be separately priced?

Response: The vendor should roll any cost for providing these services into their training costs.

Question: 53. Is the cost of travel for a sign language interpreter covered by the training CLINS or separately priced?

Response: Travel cost for interpreters will be reimbursed with all other travel costs under the "Travel" line item.

Question 54. What form of sign language is required?

Response: American Sign Language (ASL).

Question 55. Two of the products listed in this section are currently sole source agreement with another vendor. We are unable to locate any other product that meets some of the specifications listed in the specifications. The products are the BrailleStar 40 and 80. How will the specifications in this section be measured? Will the government view a bidder as non-compliant if two products do not meet all specifications of the RFP?

Response: The specifications for these items have been revised. Please see question 21. Other displays should now meet government requirements.

Question 56. Regarding Attachment 2, Assistive Technology (AT) Items Currently Owned by the IRS; what are the age of the products listed in this section?

Response: The products were purchased from 2002 to the present. The oldest products are 5-years old..

Question 57. What is the maintenance history for the products listed in this section?

Response: Please see Attachment 2. This attachment provides figures for product maintenance calls covering the previous contract year. This sampling should provide current maintenance trends.
